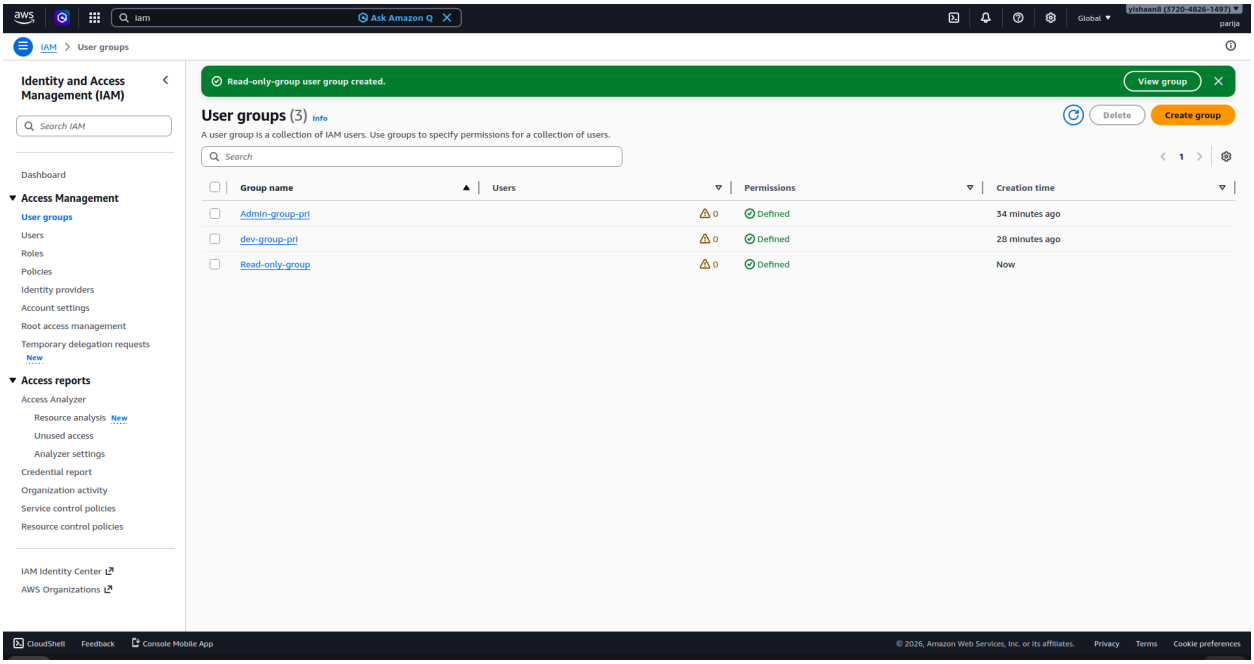
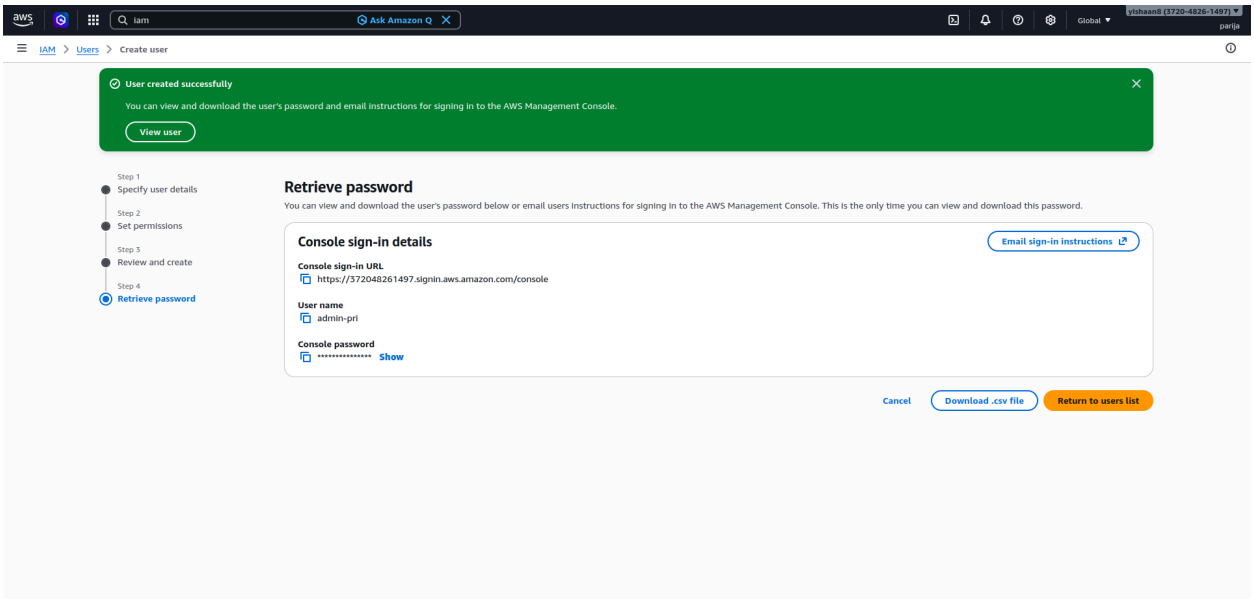
task 1

- Create IAM groups: Admin, Dev, ReadOnly
- Apply least privilege policies
- Enable MFA for root
- Create custom policy for S3 restricted folder access

step 1 - create groups and user

give user particular groups accordingly





Create custom S3 restricted folder access (dev group)

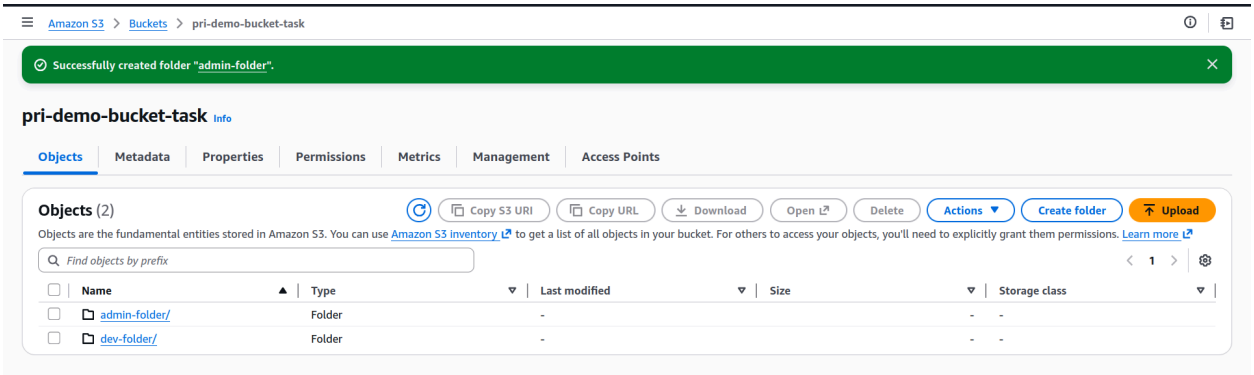
go to: S3 → create bucket

Inside bucket create two folders

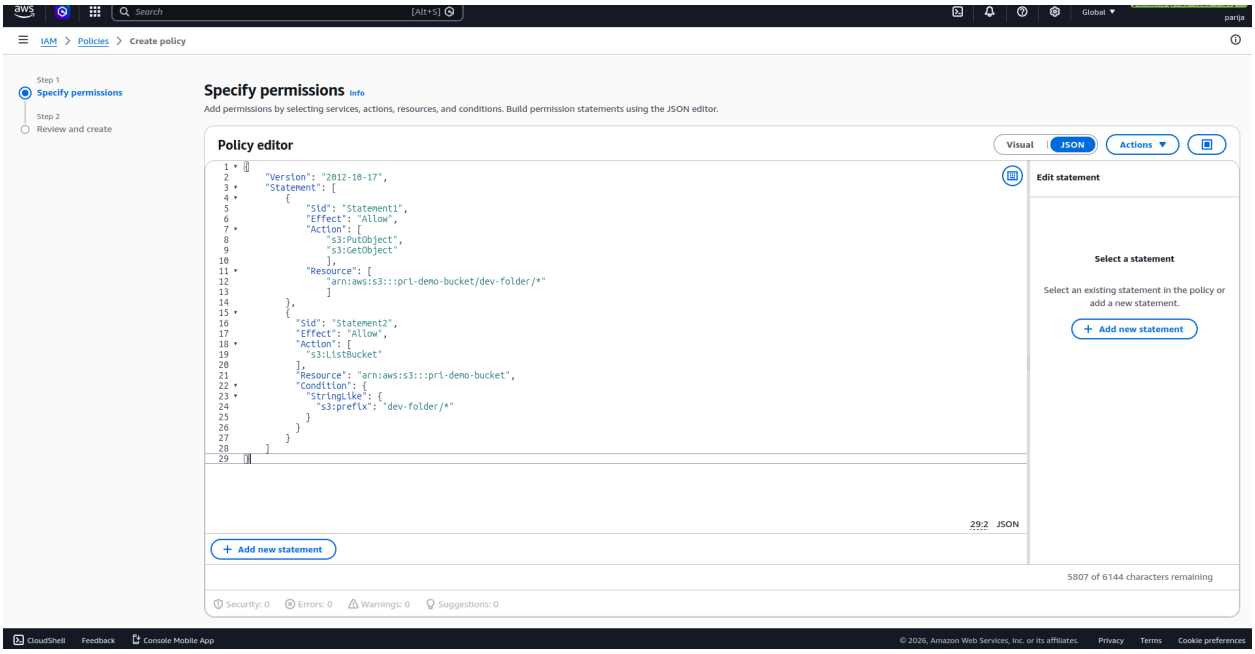
Inside that bucket create:

dev-folder/

admin-folder/



create custom policy



IAM → groups → dev-group-pri → add permissions → attach policy → select your custom policy.
